300 Mbps Wireless Lite-N Repeater appRP01V2 Approx's wireless r

Approx's wireless Lite-N repeater APPRP01V2 is a repeater for WiFi networks, for those seeking a definitive solution to extend the range of your wireless network. Connected to an electrical outlet repeats the WiFi signal to distant areas such as patios, terraces or farthest rooms. For the most demanding users it can also be used as an access point. and client mode.

With the repeater APPRP01V2 any wireless network can be extended almost immediately, all you need is an available electrical outlet in the range of the router.

One of its most outstanding features is its speed at 300Mbps with quick and easy setup in minutes.

Now there is no excuse to extend your network Wifi!

- 300 Mbps
- REPEATER + ACCESS POINT + CLIENT MODE
- 802.11 b/g/n 2,4 GHz

PRODUCT SPECIFICATIONS
